CARSON TAHOE HEALTH

MyChart
Your New Patient Portal

Have you ever wanted to refer back to your most-recent test results? Or thought about how nice it would be to send a quick question to your provider, instead of calling the office? What about being able to review and pay your medical bill online?

MyChart is a single patient portal for all your Carson Tahoe Health & Carson Tahoe Medical Group needs and will act as a gateway to your complete health record. The secure online platform will give you convenient, 24-hour access to personal health information and can act as a quick resource for you and your provider so you have the best possible care experience. Having your medical information right at your fingertips puts YOU in control of your health.

With MyChart, you'll have access to:

Messages - ask your provider questions and receive an answer in a timely manner

Appointments - schedule your next appointment online and view details of upcoming appointments

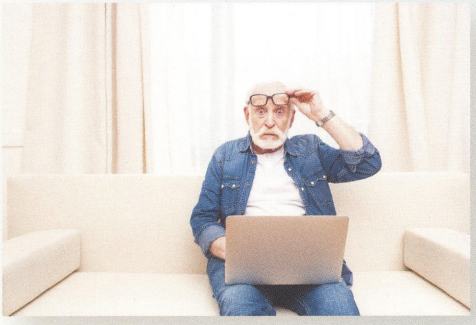
Medications - view your current medications, dosages, and request a refill

Test Results - review your test results as they come in

Billing - view billing statements and pay outstanding balances for dates of service after October 10, 2020

- In MyChart, you will be automatically enrolled in paperless billing statements and will be notified by email when a new bill is available. If you choose you may go to your MyChart app to opt-out of future e-billing.
- One bill – One Plan. A billing plan can be established per patient for any/all services rendered through Carson Tahoe Health. You will continue to receive separate bills for care provided by those physicians who operate from their own private practice.
  - Temporarily, you may receive separate individual statements as older balances (10/09 and prior) won't be integrated with MyChart.

Medical Records - view summaries and doctor's notes from past visits and admissions, or request your complete personal health record



To sign up please ask a Patient Access Rep, call 775-445-6403, or visit CarsonTahoe.com/MyChart.

After you have activated your Carson Tahoe MyChart account, you can link other existing MyChart accounts you may have with other organizations
